## Administration

### CHANGE: Divisions External tab

An *External* tab was added to the Divisions capsule for defining *Web Text* for each division.  This text will be appear as the Division list options in an upcoming release of AwareManager Gateway.

## Inventory

### FIX: Automated Inventory Timer

The timer has been adjusted to prevent the creation of multiple Inventory records for each Work Material.

## Resources

### FIX: Contact Import

This operation has been adjusted to remove extraneous blank spaces introduced in import files.

## Work

### FIX: Work Duplicate

When duplicated Work on a custom form set to Quick Entry, if Material details are duplicated, their *Inventory* value is cleared out.
