

Work

FIX: Attaching Photos Offline

When attaching photos to Work offline, the photo will no longer save twice. This has been addressed for devices running the Lollipop (5.0) OS.

The app will no longer close when viewing Files uploaded in offline mode. This has been addressed for devices running the Nougat (7.0) OS.

FIX: Material updates displayed in Offline Queue

When offline updates are made, the Queue will display Work Materials updates even if none were made. This has been resolved for the majority of instances.

FIX: Work tab focus when open in Edit mode (Nougat)

When opening a Work record in Edit mode, the focus will initially move to the Work tab to be in line with the behavior of earlier operating systems.
