

The universal installer is built to be Mac-friendly. You can access this installer file from any Mac with an internet connection.

## Installing the Files

- In Safari, go to your installer link (<u>https://clientname.amjxt.com/AMJXTInstaller.jar</u>). This will automatically begin the program download.
- 2. Once the download has completed, go to your **Downloads** folder and double-click the file to open it. The following message will appear:

	"AMJXTInstaller-2.jar" is a Java application downloaded from the Internet. Are you sure you want to open it?			
	Safari downloaded this file today at 11:50 AM from css.amjxt.com.			
?	Cancel	Show Web Page	Open	

3. Click **Open**. The installation wizard will pop up, displaying a screen that looks like this:

• • •	IzPack - Installation of AwareManager JXT	
Welcome		
Welcome to the installation of AwareMa	anager JXT 1090!	
This software is developed by:		
– AwareManager <info@awaremanager< td=""><td>r.com&gt;</td><td></td></info@awaremanager<>	r.com>	
The homepage is at: http://www.aware	manager.com/	
(Made with IzPack - http://izpack.org/)		
	Step 1 of 4	Next Q t

4. Click *Next*. The installation wizard will ask you to choose a target path. You can leave the default path if you wish, or choose a new location for the installer package.

•••	IzPack - Installation of AwareManager JXT	
Target Path		
Select the installation path:		
~/AMJXT		Browse

*Note:* The default path will drop the files in your user directory under a folder named "AMJXT" (/Users/*YourUsername*/AMJXT).

- 5. Once you have chosen a file path, click *Next* again. If you have named a location that does not already exist, you may see a dialog informing you that the directory has been created.
- 6. The next screen will install the files and inform you when the installation is complete. Once the installation progress bar reads "Finished," click *Next*.

•••	IzPack - Installation of AwareManager JXT
Installation	
Pack installation progress:	
	[Finished]
Overall installation progress:	1 / 1
(Made with IzPack - http://izpack.org/)	Previo s Next C iit

7. You should see a screen informing you that the installation is finished and that an uninstaller has also been created. Click *Done*.

	IzPack - Installation of AwareManager JXT			
Installation Finished				
Installation has completed successfully	. Please go to your install directory and run AMJXTClient.jar			
An uninstaller program has been created	d in:			
/Users/PaulSchneider/CSS/AMJXT/Unin	staller			
(Made with IzPack - http://izpack.org/)				
	Step 4 of 4	Done		

## **Opening the Database**

*Note:* These instructions are for users who chose the default directory during installation. If you chose another directory, open Finder and navigate to the directory you chose.

- 1. Open Finder.
- 2. In the Go menu at the top of the page, choose Computer.

## That's it!

*Tip:* Want to be able to access the database more easily, and with less navigation? Drag the file to your dock and pin it! Then you can access the system from your desktop for future launches, without any additional navigation.
