

Markup Operation

The Markup Operation is designed to allow you to Markup the Unit Cost of Materials by a specific percentage. Access this Operation from the Materials list by clicking **Operations**→**Markup**.

You will see the following window:

You can choose **Selected Lines** to only apply the Markup operation to specific records you have selected in the list. You can also choose **All Lines** to apply the Markup operation to all records in the list.

Enter a Markup percentage and click **Run**.

Note: The value entered will be treated as a percentage, e.g. to specify 10%, enter 10.000; do not enter 0.10.
