

JXT: Certificates of Insurance

Fix: Certificates of Insurance Expiration Date

The issue where the Expiration Date was not calculating properly has been corrected. The Expiration Date field will now display the earliest end date of the Coverage linked to the Certificate of Insurance.

Mobile: Android

Fix: File Attachments Not Showing in Equipment Tab

The issue where File attachments linked to Equipment records within JXT not displaying on the mobile application has been addressed.

Fix: Unable to Select the Task Tab

The issue where the user could not select the Task tab within the mobile application has been addressed.

Fix: Add Equipment Feature Not Disabling

The issue where the user could add Equipment records through the mobile application even when they didn't have the permission to do so within JXT has been addressed.

Mobile: iOS

Fix: Display Issues on the iPhone X

We've made a correction to the mobile application where on iPhone X's the last field on the screen was getting cut off.
