

JXT: Visitor Kiosk

Fix: Visitor Kiosk Text Being Cut Off

The issue where the text on the screens of the Visitor Kiosk was being cut off has been addressed.

JXT: Visitor Triggers

New: Ability for Visitor (Guest) to Receive Email Notification

For customers utilizing the Visitor Kiosk functionality, a new feature has been created to allow the visitor (guest) to receive an email notification with their arrival information, including a barcode to scan at the visitor kiosk.

Fix: Inconsistency of Visitor Notifications

We've made a correction to the functionality within the Visitor Triggers to ensure that notifications are going out properly, based upon the values/rules setup within each Trigger record.
